hands and theatre musicians throughout the United States, numbering between 300,000 and 400,000, will "stick by the striking actors to the end."

Charles C. Shay, president of the International Alliance of Theatrical Stage Employes, announced last night. Mr. Shay's statement followed a conference in which he, Joseph N. Weber, head of the American Federation of Musicians, and officers of the Actors' Equity Association took part.

Asked whether his assertion might be construed as a declaration of intention to call out motion picture operators here or bring about a walk-out of stage hands and musicians in additional New York theatres to-night, Mr. Shay declined to commit himself.

Francis Wilson, president of the Actors' Equity, addressed a meeting of Typographical Union No. 6 yesterday in Saengerbund Hall, Brooklyn, At the conclusion of his speech the union voted \$250 to aid the actors in their strike.

Strike Good as Won, Says Gillmore
The curtailed list of local dramatic and musical attractions, Frank Gillmore, secretary of the Equity, said, probably will be further abbreviated to-night. More stage hands and musicians, he predicted, will refuse to serve at this evening's performance at several theatres now advertising business as usual unless the Producing Managers' Association reconsiders its refusal to treat with the actors' organization.

"Our strike is as good as won," he said.
